Subject: University of Florida Policy on Facilities and Administration
Costs (F&A) for Industry- Sponsored Clinical Trials

This confirms the University of Florida's (UF) policy on the application of facilities and administration costs (F&A) to industry-sponsored clinical trials. Effective May 1, 2018, UF's policy regarding F&A recovery on industry-sponsored clinical trials should be budgeted against all direct costs (TDC-Total Direct Costs) at 30%.

Information detailing the appropriate rates and a link to the UF policy is available on-line at:

<https://generalcounsel.ufl.edu/media/generalcounselufledu/documents/FandA-Cost-Directives.pdf>
(see the section referring to "Exceptions to the Application of the Negotiated Rate" Section 3)

Sincerely,

Jason Cline
